GDF SUEZ Subsidiary Renews Contract with Doctor's Hospital at Renaissance

Leading energy retailer will provide electricity to the hospital through 2010

HOUSTON – April 14, 2009 – SUEZ Energy Resources NA, the retail energy business of GDF SUEZ Energy North America, has announced that Doctor's Hospital at Renaissance has renewed its contract with the electricity provider through 2010. Doctor's Hospital is a 500-bed hospital with several facilities throughout the Edinburg-McAllen area of Texas, all of which are now powered by SUEZ Energy Resources.

"Doctor's Hospital chose SUEZ Energy Resources because of its open, honest approach in meeting our unique energy needs," said Jim Darling, general counsel, Doctor's Hospital. "After working with the electricity provider, it became clear to us that SUEZ Energy Resources was the reliable choice, and a company we can count on for many years to come. We are pleased with our decision to renew and look forward to a long and productive partnership."

With this renewed contract in place, SUEZ Energy Resources will continue to supply 100% of the hospital's total load, more than half of which will run 24 hours a day, seven days a week.

"We are very pleased to extend our contract with Doctor's Hospital," said Bob Wilson, President and CEO, SUEZ Energy Resources NA. "We value the relationship we have with the Hospital and as a result, work hard to ensure we deliver the best products and customer service available. We are committed to retaining and developing long-term relationships in the South Texas region as evidenced by this extension and our recently announced three-year electricity supply contract with the City of Hidalgo."

SUEZ Energy Resources NA currently serves commercial and industrial customers in 11 markets: Delaware, Texas, Massachusetts, Maine, Maryland, New York, New Jersey, Pennsylvania, Illinois, Connecticut, and Washington, D.C. The company serves approximately 30,000 customer accounts, mainly with commercial and industrial customers having peak demands ranging from 50 KW to more than 200 MW, for a total contracted load of 7,150 MW.

About GDF SUEZ Energy North America, Inc.:

GDF SUEZ Energy North America, Inc. manages a range of energy businesses in the United States, Mexico, and Canada, including electricity generation and cogeneration, natural gas and liquefied natural gas (LNG) distribution and sales, asset-based trading and origination, and retail energy sales and related services to commercial and industrial customers.

GDF SUEZ Energy North America owns and/or operates a total of 72 power, cogeneration, steam, and chilled-water facilities, including those in construction, representing a capacity of 7,750 MW of electricity generation, 6.0 million pounds per hour of steam, and 41,973 tons per hour of chilled water. The company's wholly owned subsidiary, Distrigas of Massachusetts, owns and operates an LNG receiving terminal in Everett, Massachusetts, which began operations in 1971 and currently serves most of the gas utilities in New England and key power producers, meeting approximately 20 percent of New England's annual gas demand. In addition, GDF SUEZ Energy North America has an offshore LNG import facility under construction off the coast of Massachusetts.

GDF SUEZ Energy North America is part of the international energy group, GDF SUEZ.
